Website:

Email:

Number of FTE:

CRITERIA: A practice may meet one or more criteria, although the strongest nominations will meet at least several. The ideal practice:

1. Implemented a program that has significantly reduced health disparities within its patient population or community;
2. Engaged in activity that is innovative or uniquely successful in minimizing racial and other health disparities;
3. Engaged both patients and community in jointly advancing health equity;
4. Worked to address racism within the practice of medicine to reduce health disparities among patients of color;
5. Implemented activities to address the social determinants of health among patients of color and their white counterparts;
6. Implemented actions to enhance its clinicians' ability to address health equity and deliver culturally effective medicine; and/or
7. Implemented successful activities, policies, and systems to address racism and discrimination faced by its physicians, other clinicians, and staff.

Practice Award for Health Equity & Community Engagement Application Guidelines

Please provide the following information about the practice's effort in improving health equity and community engagement. Submit your response in a Word (.doc, .docx) or PDF (.pdf) document using 12 point font, single spaced. Maximum 800 words.

1. Describe the project, system, or other activity your practice implemented;
2. Describe how the project reduced or shows promise to reduce health disparities within your patient population, particularly for patients of color;
3. Describe the role of team members involved in the activity and its impact on the team, the practice, and your community;
4. Provide the data that demonstrate the activity's success and/or lessons learned; and
5. Provide any supplemental materials that demonstrate the activity's success or that may be replicated by others to implement the activity.

Permission to Share Information

The Colorado Academy of Family Physicians (CAFP) reserves the right to share information about the practice's projects/activities to address health equity and community engagement. This can include the practice name, team members, and details about the projects/activities. The sharing of this information is intended to promote the practice's work and inform others of practical activities they can undertake to improve health equity and community engagement.
